

ONGOING PROJECTS FARMSIDE GREEN

We are excited to announce that one of our Farmside Green homes will have its first occupancy in June 2021! The rest of the development is progressing very well, as you can see from the picture! We currently have 3 confirmed NetZero (ready) homes with more to come.

SEASONAL TIPS

- Remove piles of leaves and debris from your property where animals can nest;
- Prune back tree branches and shrubs that are too close to the house;
- Perform visual inspections of the exterior, check for cracks in siding, roof damage, leaks in hose bibs;
- Clean out gutters and make sure they aren't corroded or disconnected;
- Examine deck wood for any cracks, stains or warping, and consider re-sealing it;
- Pressure wash home to remove dirt, stains and mold from siding, garage floors, fences and driveway;
- Inspect gas BBQ for any gas leaks in tubes or holes where insects or rodents may have found a home;
- Clean HRV filters and check/clean the outdoor intake;
- Gently uncover and clean air conditioning unit to get it ready for peak season;
- Check and replace furnace filter;
- Lubricate hinges and hardware on garage doors;
- Check all caulking and weather stripping around doors and windows and replace if necessary;
- Check your basement and yard for puddles or signs of water damage (caused by leaky pipes, crack in foundation or improper drainage);
- Spring/summer is the best time to inspect and clean your wood burning fireplace and chimney.

2021 SPECIAL ACHIEVEMENT AWARD

RND is proud to be the 2021 recipient of the
Fred Neilson award

Named after the second Executive Director of Greater Ottawa Home Builders' Association (GOHBA), the Fred Neilson award is presented annually to a company that has made outstanding and lasting contributions to the association and to the housing industry.

"We, at RND, have been in business for 31 years and are an active member of GOHBA for the past 20 years. We look forward to continuing to be an active and exemplary member for many years to come."
